

Project Progress - (Updated)

1. Which tasks have been completed?

Researching and parsing dataset - Done

Implementing a sentiment analysis algorithm - Done, via LDA

Creating a website with a video playback and student commenting tool - Done, via the chrome extension

Integrating the algorithm - Done, via the script with the feedback from Google sheets.

2. Which tasks are pending?

Creating the presentation slides and demo

3. Are you facing any challenges?

No unexpected challenges yet. Although I don't have much web experience so I'm learning a lot here :)

4. Plus anything specifically mentioned in the reviews to cover.

Thank you for the reviews, I added the file with more details.
